  Completed in 2019

About Me

Self-motivated and hardworking fresher seeking an opportunity to work in a challenging environment to prove my skills and utilize my knowledge and intelligence in the growth of the organization. I have good knowledge of Android app development and front-end web development.

Projects

News Buddy Application

A news application built using Java and the News API to provide users with the latest news headlines from various categories. The app offers a user-friendly interface where users can easily access news articles in categories such as general, technology, entertainment, sports, health, science, etc.

Learnings: Glid library, Retrofit, Recycler View, Broadcast Services, Lottie Animations, etc.

Technology Used: XML and Java

Github: https://github.com/shamik-16/News-Buddy

Wally Android Application

Wally is an interactive and simple-looking wallpaper android application that fetches data from the Pexels API. Recyclerview is used for representing data in the grid list format.

Learning: Recycler view, Retrofit, Animations, Api call, etc.

Technology Used: XML and Java

Github: https://github.com/shamik-16/Wally

Achievements

- Solved 500+ coding problems in different platforms(Leetcode, Codechef, GFG).
- Scored 90% + in 10th and 12th Standard.
